8/4/96

Dear Dennis,

Thanks for your 7/30.

When Gerry was here he worked from the notes McKnight made on files he should examine for his book on the executive sessions. I think I sent you a copy of those notes. Gerry can tell you which still need looking at.

I've read and corrected the retyping of Picturing Corruption of the JFK Assassination and will return it to my niece Elaine, who you met at Hood, when I've made a copy of it. I say in it often that Groden can't even steal straight and forecast what has happened, suits filed over that. He has nothing but Viking's is not poor. My information on the suing is from Dallas and is vague. If anything was in any papers, it was not sent me.

We look forward to your coming.

Fine if Dave comes at the same time.

Best,

Harold
